

ISACA CAREER CATALYST STORIES

Taking Your Next Career Step with ISACA

In the digital age where continuous learning is a necessity, there is always a next step members can take to further their careers with ISACA's support. Below, several ISACA members share how they rely upon ISACA's learning resources and global community to continue progressing their careers. Learn more about ISACA and how it supports members' career journeys at www.isaca.org/membership.

“

As I continue to navigate the evolving landscape of AI and cybersecurity, I'm excited about the future and the potential for **further education and certifications in AI through ISACA**. The organization's commitment to providing comprehensive resources across emerging fields is unmatched, and I'm eager to leverage this knowledge to continue expanding my career and pushing what's possible in the industry.

Meghan Maneval

AI Risk and Governance Strategist

“

By referring to **ISACA Journal articles, white papers** and other **ISACA publications**, I will keep myself updated on the latest knowledge, which is very helpful in my continuing research and studies. Additionally, becoming a published author through ISACA provides me an opportunity to further develop my knowledge on various evolving technologies.

Ravikumar Ramachandran, CISA, CISM, CGEIT, CRISC, CDPSE, COBIT-5 Implementer, Certified COBIT Assessor
Cyber Security Mentor and CISO

“

I will use **ISACA webinars** to earn the CPE credits needed for my CISA and utilize their **blog posts and articles** for research that aids my professional growth and daily tasks. Listening to diverse opinions and gaining knowledge from peers is a great strategy for advancement in IT. With constant technological evolution, it's imperative to keep abreast of industry trends and contemplate various risk management approaches.

Karen Franklin

Director, Compliance Analytics with Discover Financial Services

“

Cybersecurity is a constantly evolving puzzle, and ISACA is like my trusted guidebook, offering a treasure trove of knowledge on the latest threats, technologies and better practices through **webinars, conferences, and local and global chapter events**. I will actively engage in these offerings, connecting with fellow cyber practitioners, sharing my experiences, and learning from their unique perspectives. It's like joining forces with a diverse team of detectives, each bringing their own skills and insights to the table.

Jay Hira

Director, Cyber Security – Financial Services, KPMG Australia

“

Emerging areas like AI governance, cyber risk quantification and regulatory changes are becoming increasingly important for the boards and executives I advise. ISACA's forward-thinking research and frameworks help me stay ahead of these trends, ensuring I provide the best possible guidance to my clients.”

Chirag Joshi, CISA, CISM, CRISC, CDPSE

Founder and CISO, 7 Rules Cyber Pty Ltd

“

I am committed to staying abreast of and contributing to ISACA's thought leadership and sharing these valuable insights with my colleagues and network. I will continue my work as a **SheLeadsTech ambassador**, championing women in technology and driving positive change within the industry.

Nomashni Naidoo

IT Business Risk Manager, SPAR Group Limited
